

How to eComment on the relicense of the Leonard Lake Dam in Ellsworth.

Thanks for your interest in commenting on the future of the Union River. Your voice and that of your neighbors is really important in helping guide the Federal Energy Regulatory Commission (FERC) in making a management decision that reflects the needs of your community and your river.

Before going online to file your comment it is recommended that you draft a message offline in a word processor—you can copy and paste it later when you eComment.

When your draft is complete (and less than 6000 characters) open your internet browser and go to <https://ferconline.ferc.gov>

In the center of the page is a link that reads “eComment”—click that link
